## Experience

### uCount Inc.

San Jose, CA  
Sept. 2013 – Present

#### Junior Programmer

- Primarily responsible for the redevelopment of dated websites from both the front-end and back-end sides, using Python and Django as well as HTML and CSS.
- Currently working on the complete redevelopment of 3 large projects, including two e-commerce sites.
- Comfortable building and wiring Django web apps, as well as Django powered CMS.
- Building unique python scripts for data visualization/parsing and web scraping in order to maintain consistently up to date sites.
- Currently learning how to handle and implement twitter/facebook APIs. Learning on the go to create functional front and back end sites.

### Boss + Bear

San Jose, CA  
May. 2013 – Present

#### Co - Founder

- Boss + Bear ([boss-bear.com](http://boss-bear.com)), is a design and development team, offering web development services for businesses and individuals who are looking for a unique, strong and stylish web presence.
- We build, host and manage websites using HTML/CSS, Javascript, PHP, Wordpress or Django's Mezzanine platform.

### La Canada High School Water Polo

La Canada, CA  
Aug. 2012 – June 2013

#### Assistant Coach

- Part of a coaching staff that coached the Varsity team to the CIF Southern Section Championship game.

### TakeLessons.com

San Diego, CA  
Jan. 2012 – Aug. 2012

#### Customer Service & Sales Representative

- Key member of a small sales team, personally brought in over 200 new customers.
- 

## Objective

To expand my skill set and knowledge as a programmer, and work with teams that challenge my expectations and further my development.
